

# All Your School Needs in One Platform

An integrated LMS & SIS platform designed to support both academic learning and school administration, bringing everything together in one integrated ecosystem.

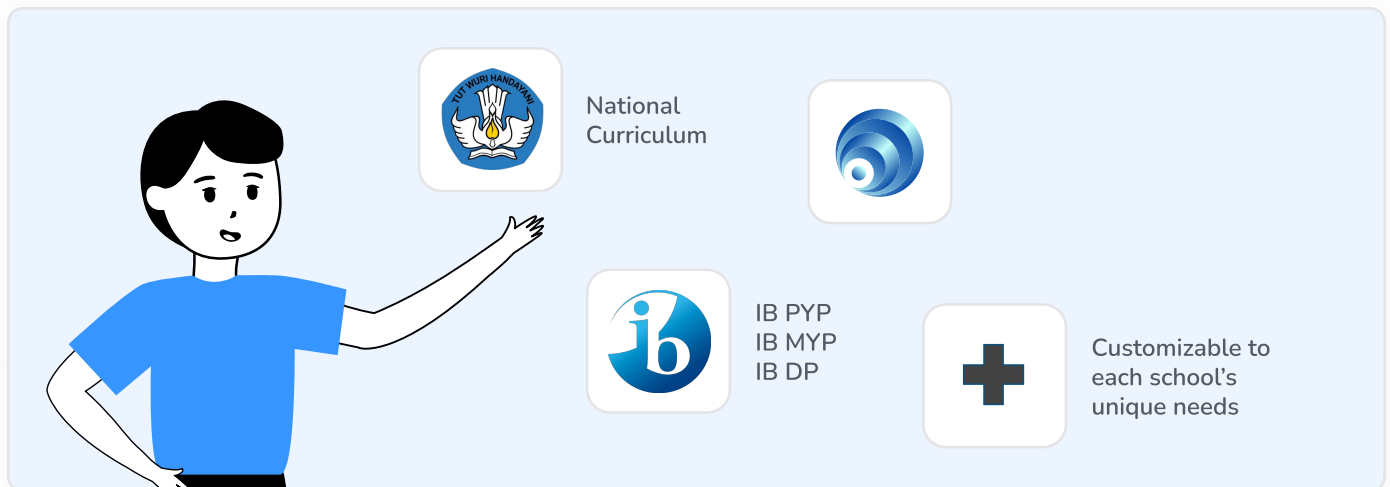

**Guru Kreator Brochure**

# Modern Technology Solutions for Schools

A Learning Management System (LMS) seamlessly integrated with a Student Information System (SIS), designed to support curriculum-based learning and efficient school operations.

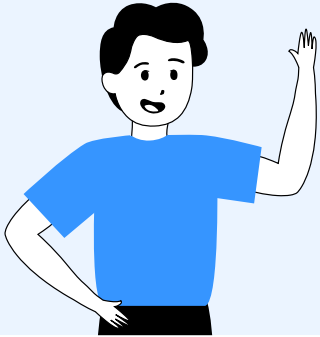

## A Curriculum-based Learning Platform

Guru Kreator (GK) is a web-based LMS that delivers a comprehensive solution for all school's needs. It empowers key stakeholders, teachers, students, parents, school leaders, founders/owners, and board members, to achieve shared educational goals efficiently effective.

GK offers a range of curriculum frameworks to ensure all stakeholder's needs are thoughtfully addressed within a single, unified ecosystem. With GK, we empower teachers, put students first, and work collaboratively toward **Generasi Emas 2045**.

# Why Guru Kreator?

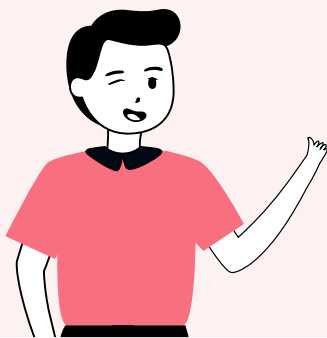

## Comprehensive

One platform that supports schools end to end, from planning and classroom implementation to assessment and reporting. Academic and non-academic processes are brought together in a single, structured system that's easy to access and manage.

## Efficiently Effective

Guru Kreator helps teachers work smarter, not harder. By simplifying routine administration, supporting varied instructional strategies, and offering thousands of ready-to-use assessments and rubrics, the platform enables efficient online workflows with real-time results, without compromising learning outcomes.

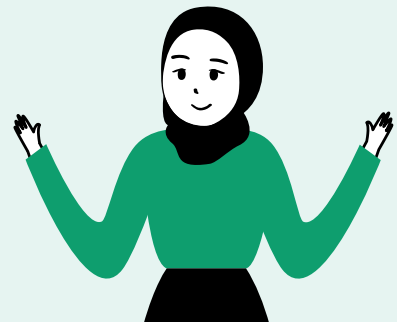

## Fully Integrated

The entire school ecosystem is connected through one seamless workflow. Teachers, school leaders, administrative staff, and parents access the same accurate, up-to-date information. No more scattered data across multiple platforms.

## Designed for All School Needs

Every school works differently, and Guru Kreator understands that. The platform is fully customizable to reflect each school's unique curriculum, teaching strategies, and instructional approaches.
